DETAILS:

Flared arms that slope down on the sides and a dainty lining of individual nailheads give this set its classy appeal. Fully wrapped in linen-like fabric, the base frame provides a simple and bold silhouette, while the loose pillow backs add a few jagged contours in contrast to the sleek, curved lines of the frame. The throw pillows feature a variety of designs that give a striking contrast to the neutral upholstery of the pieces. And then there are a few more details such as the matching welt trim and the box seat cushions that offer unparalleled comfort
