

Care Instructions for "S"

Spot clean only with a water-free dry cleaning solvent. Do not saturate. When cleaning a spill, blot immediately to remove spilled material. Pile fabrics may require brushing to restore appearance. Do not use water. Cushion covers should not be removed and dry cleaned.

Care Instructions for "W"

Spot clean only with water-based shampoo or foam upholstery cleaner. Do not saturate. When cleaning a spill, blot immediately to remove spilled material. Pile fabrics may require brushing to restore appearance. Do not use solvents to spot clean. Cushion covers should not be removed and laundered.

Care Instructions for "WS"

Spot clean with upholstery shampoo, foam from a mild detergent, or mild dry cleaning solvent. Do not saturate with liquid. Pile fabrics may require brushing to restore appearance. Cushion covers should not be removed and dry cleaned.

Care Instructions for Leather

Leather is a natural material that, when cared for properly, will maintain its appearance for many years.

General Care/Cleaning Tips:

- Keep the leather clean. Vacuum and dust often.
- If you have a spill, address the spill quickly by blotting instead of rubbing.
- Never use chemicals, saddle soaps or harsh cleaners, as they may compromise the finish of the leather.
- Before using any cleaner, test the substance on a hidden area.
