NANOBOXX NANO10SPX 10" Underseat Powered Bass System

New Sealed
Connectors!

IP66

Water Resistant

The all-new NANOBOXX delivers powerful, under-seat bass in tight spaces—now built to handle even the harshest environments. With an IP66 rating, it's fully protected against water, dust, and debris. Sealed connectors and a weather-resistant control panel make it perfect for Jeeps, powersports, and any adventure-ready setup. Whether you're off-roading or cruising in the rain, NANOBOXX brings big bass without compromise. One listen is all it takes to hear why it's the best slim bass solution out there.
