NOW YOU CAN

Description

009-0598-00

The Desktop Charging Dock (DCD-100B or DCD-100W) transforms the Apple iPad® into a cost-effective wireless desktop touch panel.

The Desktop Charging Dock for iPad is comprised of a desktop charging cradle and power supply. An iPad is powered by the dock, and while docked its touch screen is used for wireless navigation and control of Savant automation and control solutions.

The Desktop Charging Dock for iPad compliments Savant's industrial design and provides additional mechanical stability when the user is tapping or swiping the touch user interface. It is designed to be installed and placed on any level surface, including desktops and shelves.

The DCD-100B/DCD-100W coupled with the Savant iPad automation app, users can navigate and control their Savant system, while also using the built-in applications available with the iPad.
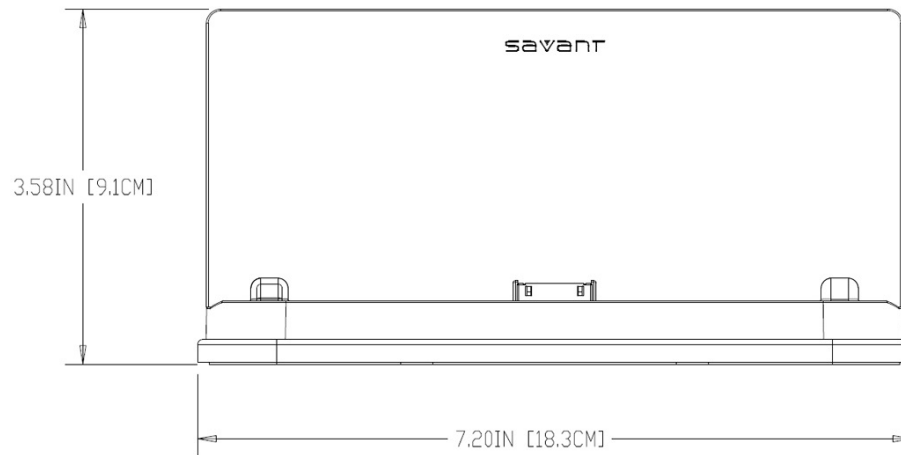

Feature Summary

- Desktop Charging Dock (iPad® not included)

- Integrated iPad Charger charges iPad simultaneously while navigating and controlling Savant control systems

- Transforms an iPad into a fixed wireless desktop touch panel

- Scalable and expandable—add multiple docks through the installation

- Compatible with the iPad WiFi and iPad 3G models

- Readily placed in strategic installations
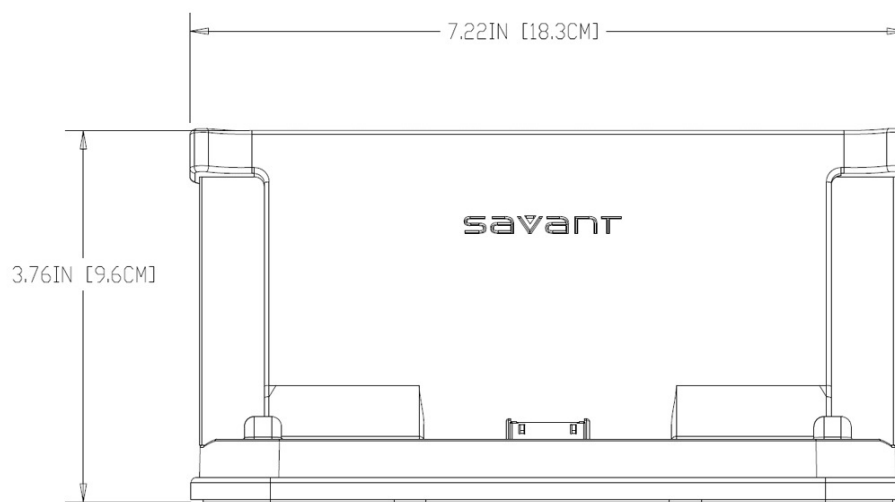

- Available in black or white
