NOTES

Power control independently adjusts the headrest, recline, and lumbar support for a personalized sit

A USB port is built into the power control for convenient charging

Home button returns the headrest, footrest, and lumbar support to their original positions with one touch

Built to last with our DualFlex Spring System™—sturdy steel ribbons attached to flexible coils that offer a wide range of motion and durability

Padded track arms add contemporary flair and reliable comfort to your space

Contoured seat provides hours of supportive comfort

Divided back cushions have a clean look and cradles the head, neck, and shoulders

Attached back and seat cushions stay in place, extending their lifespan and maintaining a tidy appearance

Cushions consist of a high-density foam core that ensures comfort as you sit and recline

Removable backs allow for easy lifting and maneuvering through doorways

Available in a wide variety of select fabrics, including performance options, to suit your personal décor, style and family

Center storage console features two cup holders and space to house remotes, magazines and other items

The power control allows you to independently adjust the recline, headrest, and lumbar support.

A separate home button returns the headrest, footrest, and lumbar support to their original positions with one touch.

A USB port is included on the power control for powering electronics.

Zero draw technology only uses power when the USB port is in use.
